

INCREDIBOOTH

FROM THE GUYS THAT BROUGHT YOU
HIPSTAMATIC & SWANKOLAB

First we blew your mind with Hipstamatic. Then we rocked your iPhone with SwankoLab.
Now we change your life with...

INCREDIBOOTH - A Photo Booth in your Pocket!

Step up, sit down, and get ready to cram as many of your friends together as possible. The filmstrip photo booth has returned and it's incredible! No more hunting down old dirty dive bars, no coins needed, and no longer limited to a single backdrop! Bring your IncrediBooth with you and become the life of any party.

We've taken the best lens and film combos from the Hipstamatic and built a photo booth around it. It's incredibly easy to use... Set the scene, line yourself up with the built-in mirror, and fire away!

Share with Facebook or email:

Send the whole strip or just one or two of your favorite poses directly to Facebook or email. Plus, IncrediBooth fully supports the new multi-tasking in iPhone 4, so you can leave the app and do something else while your upload is progressing.

Say cheese!
